

Chiba Medical Journal: Publishing Fee Information

In principle, as stated in “5. Publishing costs” in Instructions for Authors, **the author bears the costs** related to any contributed original manuscript. The unit prices for one printed page in the publishing fees are as shown below, although an approximation has been calculated and proposed for, on demand, when author corrections are performed.

The Chiba Medical Society Publishing Fee (as of October 2019)

	Monochrome (excluding tax)	Color (excluding tax)
Unit price for one printed page including figures (other than photographs) and tables	11,000	66,000
Photograph on one printed page (as correction/processing fee)	0	1,000

Reprint price list (50 copies) (as of October 2019)

•The same fees are charged for 1 to 50 copies (the following fees + 500 yen are charged each time there are more than 50 copies)

Number of printed pages	Price (including tax)
Up to 2 pages (no cover page)	1,000
3 - 4 pages	6,200
5 - 6 pages	6,800
7 - 8 pages	7,400
9 - 10 pages	8,000

Example 1:

Original paper: 5 monochrome printed pages (2 photographs); if 50 reprint copies are made

Publishing fee: $11,000 \times 5 \text{ pages} = 55,000$ (+ 5,500 tax) **60,500 yen**

Reprint: **6,800 yen**

Total cost price: $60,500 + 6,800 = 67,300$ yen

Example 2:

Original paper: 2 color printed pages (4 photographs), 3 monochrome printed pages (2 photographs); if 200 reprint copies are made

Publishing fee:

Color: $66,000 \times 2 \text{ pages} + \text{photograph } 1,000 \times 2 \text{ pages} = 134,000$ (+ 13,400 tax) **147,400 yen**

Monochrome: $11,000 \times 3 \text{ pages} = 33,000$ (+ 3,300 tax) **36,300 yen**

Reprint: $6,800 + 500 \times 3 = 8,300$ yen

Total cost price: $147,400 + 36,300 + 8,300 = 192,000$ yen
